

CECW-ET

**DEPARTMENT OF THE ARMY  
U.S. Army Corps of Engineers  
Washington, DC 20314-1000**

EM 1110-1-1804

Manual  
No. 1110-1-1804

1 January 2001

**Engineering and Design  
GEOTECHNICAL INVESTIGATIONS**

**Table of Contents**

| Subject   | Paragraph | Page |
|---|-----------|------|
| <b>Chapter 1<br/>Introduction</b>   |           |      |
| Purpose .....   | 1-1       | 1-1  |
| Applicability .....   | 1-2       | 1-1  |
| References .....  | 1-3       | 1-1  |
| Background .....  | 1-4       | 1-1  |
| Scope of Manual .....   | 1-5       | 1-2  |
| <b>Chapter 2<br/>Scope of Investigations</b>                                  |           |      |
| Background .....  | 2-1       | 2-1  |
| <i>Section I</i>  |           |      |
| <i>Civil Works Projects</i>   |           |      |
| Reconnaissance and Feasibility Studies .....                                  | 2-2       | 2-1  |
| Preconstruction Engineering and Design Studies .....                          | 2-3       | 2-6  |
| Construction Activities .....   | 2-4       | 2-13 |
| <i>Section II</i>   |           |      |
| <i>Military Construction Projects</i>   |           |      |
| Background .....  | 2-5       | 2-17 |
| Preconcept and Site Selection Studies .....                                   | 2-6       | 2-18 |
| Concept Studies .....   | 2-7       | 2-18 |
| Final Design Studies .....  | 2-8       | 2-19 |
| Construction Activities .....   | 2-9       | 2-19 |
| <b>Chapter 3<br/>Regional Geologic and Site Reconnaissance Investigations</b> |           |      |
| Background .....  | 3-1       | 3-1  |
| <i>Section I</i>  |           |      |
| <i>Coordination and Information Collection</i>                                |           |      |
| Interagency Coordination and Cooperation .....                                | 3-2       | 3-1  |
| Survey of Available Information .....   | 3-3       | 3-3  |

| Subject                                       | Paragraph | Page |
|---|-----------|------|
| <b>Section II</b>                             |           |      |
| <i>Map Studies and Remote Sensing Methods</i> |           |      |
| Map Studies .....                             | 3-4       | 3-3  |
| Remote Sensing Methods .....                  | 3-5       | 3-9  |
| <b>Section III</b>                            |           |      |
| <i>Field Reconnaissance and Observations</i>  |           |      |
| Field Reconnaissance .....                    | 3-6       | 3-10 |
| Observations .....                            | 3-7       | 3-10 |
| <b>Section IV</b>                             |           |      |
| <i>Information Development</i>                |           |      |
| Summary .....                                 | 3-8       | 3-11 |
| <b>Chapter 4</b>                              |           |      |
| <b>Surface Investigations</b>                 |           |      |
| Background .....                              | 4-1       | 4-1  |
| <i>Section I</i>                              |           |      |
| <i>Geologic Field Mapping</i>                 |           |      |
| Areal Mapping .....                           | 4-2       | 4-1  |
| Site Mapping .....                            | 4-3       | 4-2  |
| Construction Mapping .....                    | 4-4       | 4-3  |
| <i>Section II</i>                             |           |      |
| <i>Surface Geophysical Explorations</i>       |           |      |
| Background .....                              | 4-5       | 4-4  |
| Methods .....                                 | 4-6       | 4-4  |
| <b>Chapter 5</b>                              |           |      |
| <b>Subsurface Investigations</b>              |           |      |
| Background .....                              | 5-1       | 5-1  |
| Location of Investigations .....              | 5-2       | 5-1  |
| Protection of the Environment .....           | 5-3       | 5-1  |
| <i>Section I</i>                              |           |      |
| <i>Borings</i>                                |           |      |
| Major Uses .....                              | 5-4       | 5-2  |
| Boring and Sampling Methods .....             | 5-5       | 5-2  |
| Drilling in Embankments .....                 | 5-6       | 5-8  |
| <i>Section II</i>                             |           |      |
| <i>Drillhole Inspection and Logging</i>       |           |      |
| Objectives .....                              | 5-7       | 5-8  |
| Soil Identification and Description .....     | 5-8       | 5-9  |
| Coring .....                                  | 5-9       | 5-9  |

| <b>Subject</b>   | <b>Paragraph</b> | <b>Page</b> |
|--|------------------|-------------|
| Core Logging .....   | 5-10             | 5-10        |
| Drilling Log Form and the Boring Log Data Management Program ..... | 5-11             | 5-14        |
| <br><i>Section III</i>   |                  |             |
| <i>Borehole Examination and Testing</i>                            |                  |             |
| Borehole Geophysical Testing .....                                 | 5-12             | 5-14        |
| Borehole Viewing and Photography .....                             | 5-13             | 5-14        |
| Borehole Camera and Borescope .....                                | 5-14             | 5-15        |
| Borehole TV Camera and Sonic Imagery .....                         | 5-15             | 5-15        |
| Alinement Surveys .....  | 5-16             | 5-15        |
| <br><i>Section IV</i>  |                  |             |
| <i>Exploratory Excavations</i>                                     |                  |             |
| Test Pits and Trenches .....                                       | 5-17             | 5-15        |
| Calyx Hole Method .....  | 5-18             | 5-16        |
| <br><i>Section V</i>   |                  |             |
| <i>Groundwater and Foundation Seepage Studies</i>                  |                  |             |
| General Investigation .....  | 5-19             | 5-16        |
| Permeability Testing .....   | 5-20             | 5-17        |
| Pressure Tests .....   | 5-21             | 5-21        |
| <br><i>Section VI</i>  |                  |             |
| <i>In Situ Testing for Determining Geotechnical Properties</i>     |                  |             |
| In Situ Testing .....  | 5-22             | 5-22        |
| In Situ Tests to Determine Shear Strength .....                    | 5-23             | 5-23        |
| Tests to Determine In Situ Stress .....                            | 5-24             | 5-25        |
| Tests to Determine In Situ Deformation .....                       | 5-25             | 5-27        |
| Determination of Dynamic Moduli by Seismic Methods .....           | 5-26             | 5-29        |
| <br><i>Section VII</i>   |                  |             |
| <i>Backfilling of Holes and Disposition of Samples and Cores</i>   |                  |             |
| Backfilling Boreholes and Exploratory Excavations .....            | 5-27             | 5-30        |
| Disposition of Soil Samples .....                                  | 5-28             | 5-30        |
| Disposition of Rock Cores .....                                    | 5-29             | 5-30        |
| <br><b>Chapter 6</b>   |                  |             |
| <b>Large-scale, Prototype Investigations</b>                       |                  |             |
| Prototype Test Programs .....                                      | 6-1              | 6-1         |
| <br><i>Section I</i>   |                  |             |
| <i>Test Excavation and Fills</i>                                   |                  |             |
| Accomplishments .....  | 6-2              | 6-1         |
| Test Quarries .....  | 6-3              | 6-1         |
| Exploratory Tunnels .....  | 6-4              | 6-3         |
| Test Fills and Trial Embankments .....                             | 6-5              | 6-3         |

| Subject   | Paragraph | Page |
|---|-----------|------|
| <b>Section II</b>   |           |      |
| <i>Test Grouting</i>  |           |      |
| Purpose .....   | 6-6       | 6-5  |
| Test Grouting Practices .....   | 6-7       | 6-5  |
| Test Grouting Program .....   | 6-8       | 6-5  |
| Record Keeping .....  | 6-9       | 6-5  |
| <b>Section III</b>  |           |      |
| <i>Piling Investigations</i>  |           |      |
| Piling Investigation Benefits .....                                     | 6-10      | 6-6  |
| Driving Records .....   | 6-11      | 6-6  |
| Load Testing .....  | 6-12      | 6-6  |
| <b>Chapter 7</b>  |           |      |
| <b>Laboratory Investigations</b>  |           |      |
| Purpose .....   | 7-1       | 7-1  |
| <b>Section I</b>  |           |      |
| <i>Test and Sample Selection</i>  |           |      |
| Needs for Test and Sample Selection .....                               | 7-2       | 7-1  |
| <b>Section II</b>   |           |      |
| <i>Index and Classification Tests</i>                                   |           |      |
| Soils .....   | 7-3       | 7-3  |
| Rock .....  | 7-4       | 7-4  |
| <b>Section III</b>  |           |      |
| <i>Engineering Property Tests - Soils</i>                               |           |      |
| Background .....  | 7-5       | 7-5  |
| <b>Section IV</b>   |           |      |
| <i>Engineering Property Tests - Rock</i>                                |           |      |
| Background .....  | 7-6       | 7-6  |
| <b>Section V</b>  |           |      |
| <i>Engineering Property Tests - Shales and Moisture-Sensitive Rocks</i> |           |      |
| Index Testing .....   | 7-7       | 7-8  |
| Swelling Properties .....   | 7-8       | 7-9  |
| <b>Appendix A</b>   |           |      |
| <b>References</b>   |           |      |
| <b>Appendix B</b>   |           |      |
| <b>Geologic Mapping Procedures Open Excavations</b>                     |           |      |
| <b>Appendix C</b>   |           |      |
| <b>Geologic Mapping of Tunnels and Shafts</b>                           |           |      |
